

Listing of Claims

1. (Currently Amended) A method of conducting electronic commercial transactions through a communication network, comprising:
 - (a) providing access to a website displaying information representing a plurality of contents and an option to purchase each of said contents with or without a discount;
 - (ab) receiving a first signal selecting the displayed option to buy a first content to buy with a discount from the [[a]] website accessed through the communication network;
 - (bc) receiving a second signal selecting at least one second content having an effect of information conveyance, the second content including advertisement information displayed in response to the first signal;
 - (ed) combining the first content and the second content into a third content; [[and]]
 - (de) reducing determining a price of the first third content from a first price to a second price based on the discount computed from selection of the first and the second content; and
 - (f) providing the third content to a buyer in response to payment of the second price.
2. (Canceled)
3. (Currently Amended) The method of claim 1, wherein step (de) adds the second content to at least one of the front, middle, and rear of the first content.

4. (Original) The method of claim 3, wherein each second content is converted to the format of the first content, before the combination.

5. (Currently Amended) The method of claim 1, wherein the discount price of the ~~third content~~ is determined based on a number of second contents combined with the first content or each value of the second contents.

6. (Currently Amended) The method of claim 5, wherein the first price of the ~~first~~ content is reduced to the second price in proportion to the number of second contents combined to the first content based on the discount.

7. (Original) The method of claim 1, wherein each second content includes a list of other contents to be sold or address information of other servers providing on-line sale services.

8. (Currently Amended) The method of claim 1, wherein step (f) includes:
storing the third content ~~is stored~~ in a recording medium to be delivered to the [[a]] buyer.

9. (Original) The method of claim 8, wherein the recording medium is one of a CD, a DVD, an FDD, an HDD, and a memory.

10. (Currently Amended) The method of claim 1, wherein step (f) includes:
transmitting the third content to the buyer ~~is transmitted~~ on-line through the communication network.
11. (Original) The method of claim 10, wherein the third content is formatted as MPEG data.
12. (Original) The method of claim 1, wherein the second content is inserted in a prescribed field, defined in the first content, without any data conversion.
13. (Original) The method of claim 1, wherein the second content selected in step (b) is selected by a buyer or a seller of the first content.
14. (Original) The method of claim 1, wherein the first and second contents are combined such that the play back of the first content cannot be obtained without the playback of the second content.

15-18 (Canceled)

19. (Currently Amended) A method of conducting electronic commercial transactions through a communication network, comprising:

- (a) providing access to a website displaying information representing a plurality of contents and an option to purchase each of said contents with or without a discount;
- (ab) receiving a first signal selecting a first content having a first price to buy from the [[a]] website accessed through the communication network;
- (bc) selecting at least one second content;
- (ed) presenting the selected second content to a user and asking a question about the presented second content;
- (df) receiving a reply to the question from the user and determining whether the user has viewed the presented second content, based on the information contained in the received reply; and
- (eg) determining a second price of the first content based on the first price of the first content and the number of second contents selected.

20. (Original) The method of claim 19, wherein each second content comprises advertising materials.

21. (Original) The method of claim 19, further comprising combining the first content and the second content to form a third content.

22. (Original) The method of claim 21, wherein the first and second contents are integrally combined into the third content and the first content cannot be played back from the third content without the playback of the second content.

23. (Currently Amended) A method of purchasing multimedia content over a communications network, comprising:

providing access to a website displaying information representing a plurality of multimedia content items and an option to purchase each of said contents with or without a discount;

receiving a signal selecting at least one multimedia content item for purchase at a first prescribed price, from among the [[a]] plurality of multimedia content items;

selecting at least one advertisement item having a prescribed value, from among a plurality of advertisement items;

combining a content of the at least one selected advertisement item with a content of the at least one multimedia content item; and

determining a final purchase price by reducing the first prescribed price for the at least one multimedia content item by the prescribed value of the at least one advertisement item.

24. (Original) The method of claim 23, wherein the at least one selected advertisement item and the at least one multimedia content item are integrally combined into a compilation, and the at least one multimedia content item cannot be played back from the compilation without the playback of the at least one selected advertisement item.

25. (Previously Presented) The method of claim 1, wherein a subscription for accessing the website is priced independently from the price of the first content.

26. (Previously Presented) The method of claim 19, wherein a subscription for accessing the website is priced independently from the price of the first content.

27. (Previously Presented) The method of claim 1, wherein subscription to the website is obtained by obtaining a username and password.

28. (Canceled).

29. (Previously Presented) The method of claim 21, wherein subscription to the website is obtained by obtaining a username and password.

30. (Canceled)

31. (Previously Presented) The method of claim 25, wherein subscription to the website is obtained by obtaining a username and password.

32-46 (Canceled)

47. (New) The method of claim 1, further comprising:
displaying a separate price for each of the displayed contents represented on the website.

48. (New) The method of claim 1, wherein access to the website is provided before the second signal is received.

49. (New) The method of claim 1, wherein reducing the price includes:
reducing the first price to the second price by a predetermined value of the selected advertisement;
receiving a third signal selecting another advertisement; and
reducing the second price to a third price by an amount equal to less than a predetermined value of the other selected advertisement.

50. (New) The method of claim 49, wherein the second price is reduced by a first amount less than the predetermined value of the other advertisement when the other advertisement is newly selected by the buyer, and wherein the second price is reduced by a second amount less than the predetermined value of the other advertisement when the other advertisement has been previously selected by the buyer.

51. (New) The method of claim 49, wherein said amount corresponds to a predetermined percentage of the value of the other selected advertisement.

52. (New) The method of claim 49, further comprising:
receiving additional signals selecting additional advertisements;
reducing the third price by respective amounts equal to less than predetermined values of the additional selected advertisements, wherein reduction rates corresponding to the additional selected advertisements increase in predetermined increments based on order of selection.

53. (New) The method of claim 1, wherein the advertisement is pre-assigned for display when the first content is selected.

54. (New) The method of claim 1, further comprising:
withholding the price reduction until receiving confirmation that the user actually
viewed the selected advertisement.

55. (New) The method of claim 1, wherein (a) includes:
displaying a first selectable icon corresponding to an undiscounted price of the
first content; and
displaying a second selectable icon representing said option to purchase the first
content with a discount.

56. (New) The method of claim 55, wherein the first and second selectable icons are
simultaneously displayed on the website adjacent an object representing the first content.

57. (New) The method of claim 56, wherein the object is a graphical object
corresponding to or an image of the first content.

58. (New) The method of claim 57, further comprising:
displaying a first list of advertisers or advertisements on a different web page in
response to selection of the displayed option by the first signal;
displaying a second list of advertisers or advertisements selected by the buyer from

Serial No. **10/050,157**
Amendment dated June 30, 2006
Reply to Office Action of April 7, 2006

Docket No. **LT-0011**

the first list, the second list including the advertisement information selected by the second signal.

59. (New) The method of claim 58, further comprising:
displaying the second price as reduced by the discount adjacent the second list.

60. (New) The method of claim 59, wherein the second price is displayed as a formula which includes an original price of the first content minus the discount to equal the second price.
